

FAA STUDENT PROGRAMS

GATEWAYS PROGRAM

The Gateways Program consists of three separate components:

1. INTERNSHIP PROGRAM

The Internship Program is for current students who have been accepted for enrollment or are enrolled and seeking a degree in a qualifying educational institution, on a full- or half-time basis. The Internship Program provides students in colleges, trade schools and other qualifying educational institutions with paid opportunities to work in agencies and explore federal careers while completing their education.

2. RECENT GRADUATES PROGRAM

The Recent Graduates Program provides developmental experiences in the federal government to individuals who, within the previous two years, graduated from qualifying educational institutions with an associate's, bachelor's, master's, professional, doctorate, vocational or technical degree or certificate from qualifying educational institutions. Eligible applicants must apply within two years of degree or certificate completion; veterans, due to their military service obligation, will have up to six years after degree or certificate completion to apply.

3. VOLUNTEER SERVICE STUDENT PROGRAM

The FAA Volunteer Service Program provides an opportunity for college, high school, technical or vocational students to experience the world of aviation in educationally relevant work assignments through a positive working, learning, and developmental experience. This is an unpaid internship, but the rewards it offers can have a great impact on your future.

To be eligible you must be enrolled in at least a half-time course load (as defined by the academic institution) and maintain a 2.0 GPA (4.0 scale). You must be a U.S. Citizen and at least 16 years old.
